

Designed for possibilities.  
Made for people.

## Altro Whiterock™ hand wash station

### Typical applications:

Hospitals, community healthcare, care homes, commercial kitchens, hotels, leisure centres. Changing areas in all sectors. In areas where both surface and hand hygiene are imperative, you can now enjoy a fuss-free installation with the all-new pre-fabricated modular solution: Altro Whiterock hand wash station.

- HBN 00-10 compliant modular units, pre-fabricated and thermoformed with all required parts including lockable access panels, taps and basin kit to meet your exact needs
- Fully compatible with all Altro walls and doors for a consistent design finish
- Choose from the colour palettes of Altro Whiterock Satins™, Altro Whiterock Chameleon™, and Altro Whiterock™ wall designs for varied design options

For full colour range please visit [www.altro.com/altro-whiterock-hand-wash-station](http://www.altro.com/altro-whiterock-hand-wash-station).

### Altro Whiterock hand wash station

HBN 00-10 compliant pre-fabricated modular solution encapsulated in Altro Whiterock wall sheet for hand washing. A choice of four modular configurations pre-thermoformed with no horizontal or vertical joints, complete with all required parts including access panels, taps and basin kit.

### Size:

Height: to suit ceiling height (max 3000mm)/  
scribed on site to suit ceiling height

Width: standard 750mm

Depth: standard 225mm

### Thickness:

12mm core faced with 2.5mm Altro Whiterock.

### To clean:

Wash with water or diluted soap/detergent. Follow the manufacturer's dilution instructions. Use a soft cloth only. Do not use abrasive cleaners, pads or wire wool. Clean heavily soiled areas with AltroClean™ 44 cleaner or equivalent alkaline cleaner.
