Altro Wood Comfort™ product datasheet

Realistic wood visuals with enhanced underfoot comfort

Altro Wood Comfort

Altro Wood Comfort is an ideal choice for areas that need to look good while providing comfort underfoot. This 2.85mm thick option offers 15dB sound reduction, which is great for noisy environments such as healthcare and education settings. For an acoustic option, please see Altro Wood Acoustic.

With matching design and color options across this range and two other wood-look ranges, you can achieve a consistent look in different areas and have the ability to choose between ranges for the right technical performance according to the area.

Altro Wood Comfort also looks great paired with Altro Wood, Altro Wood Acoustic, Altro Wood adhesive-free, Altro Symphonia or even Altro Orchestra.

Typical applications

Healthcare, senior living, education, retail, offices, light gym and recreational areas

Features + benefits

- 2.85mm thick
- Provides ample comfort underfoot
- 15dB sound reduction, ideal for noisy environments such as healthcare and educational settings
- Allows coordination with Altro Wood, Altro Wood Acoustic and Altro Wood adhesive-free ranges for smooth transition between areas requiring different levels of slip resistance and sound absorption
- Resists up to 1,000 psi indentation
- FloorScore Certified / Low VOCs

Better together

Smooth flooring from Altro gives you what you want - an economical and attractive look that's easy to install and maintain. But, in commercial areas with frequent spillages and hygiene and durability concerns, it's best to let our robust collection of safety flooring, slip-resistant flooring and wall cladding join the team!

Install smooth flooring in the dining room and public areas, and bring safety flooring and wall protection into the kitchen, bar and restrooms. You will rest easy knowing your patrons will have an exquisite experience while the most dangerous areas in your facility are well equipped to handle the tolls of the day.

We strongly recommend carrying out a risk assessment in any area in which the installation of smooth flooring is considered, focusing on the potential risk posed by contaminants.

Altro Easyclean Technology

Rather than using a superficial surface coat, Altro Easyclean Technology is incorporated into the flooring while it is manufactured. This allows Altro flooring to benefit from enhanced cleaning and maintenance while still allowing our products' slip-resistant properties to shine through.

Smooth flooring will have a higher level of Altro Easyclean than a slip-resistant or safety floor.

- Industry-leading ease of cleaning
- Enhanced long-term cleanability
- Cleaning and maintenance cost savings
- Sustained long-term slip resistance
- Exceptional long-term durability
- Low dirt pick-up qualities
- Improved color retention
