Altro walls create hotel atmosphere in hospital

Issue

The Brüderkrankenhaus St. Josef Hospital in Germany is part of the BBT Group, which treats more than 75,000 outpatients and inpatients in the region. On the four elective service hospital wards, patients receive extended care in addition to the usual qualified, medical and nursing services.

Approach

One of the refurbishment goals was to achieve a pleasant, non-clinical and comfortable atmosphere in the patient rooms, so different themes were used in each. The recently modernised wards have a nature theme with warm, autumnal colours and landscapes.

Solution

To create the nature theme featuring fields and meadows, a combination of Altro Whiterock DigiClad (Custom) and Altro Whiterock wall designs was chosen. The warm metallic design, Antique Copper, was selected for the walls, and it harmonises perfectly with the colours of the cornfield motif on the Altro Whiterock DigiClad (Custom) in the shower area.

“The newly designed bathrooms provide a wow effect for patients and employees. The future planned refurbishments will again use Altro Whiterock, maintaining the desired look and feel.”

Markus Jordan,
Technical Director,
