Comfort and safety provided for healthcare unit

“The previous product, a latex screed, had failed so we needed a floor that we knew would be robust, durable, and be fit for purpose – so we chose Altro.”

Comfort and safety provided
for healthcare unit

Issue

Blickling Ward at Julian Hospital is a unit for adult mental health patients undergoing a major refurbishment to provide comfortable, secure and welcoming facilities for staff and patients. The installation needed to be approached with patient sensitivity and completed with minimum disruption, often overnight.

Approach

To ensure the most suitable design, staff were consulted and given the opportunity to select shades and colours that would be most appropriate for the unit. With the need for anti-ligature products, Altro floors and walls offered a complete solution for the different areas and the technical specification required.

Solution

Altro Aquarius, Altro Whiterock White and Altro Whiterock Satins were specified for the bathrooms and toilets providing an easy to clean, colourful, hygienic and safe environment.

Altro Wood adhesive-free was specified for the corridors and communal areas which required a fast installation with minimal disruption.

Altro Suprema was specified for the bedrooms, providing style and comfort.

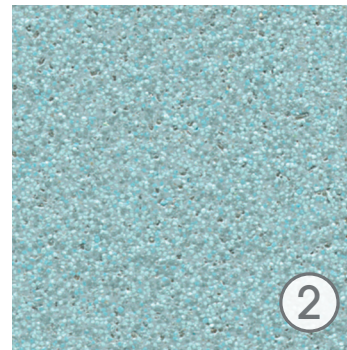

“We have a preferred specification of Altro products, and the unit staff were responsible for selection of designs and colours.”

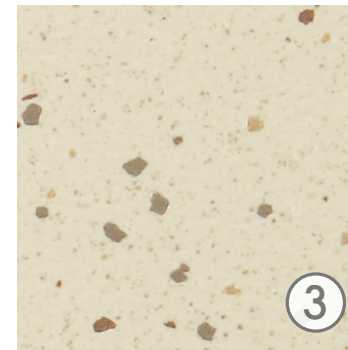

Matthew Milne,
Capital Projects Manager, Norfolk
and Suffolk NHS Trust
