Adrenalin Source for Sports

A power play in flooring

Calgary, Alberta, Canada

Adrenalin Source for Sports Calgary is a sporting goods store and retailer specializing in a range of sporting equipment since 2007. Known for its high-quality sports equipment and exceptional service, Adrenalin Source for Sports wanted to enhance its new store location with flooring specifically suited for the high-traffic, hockey-skate section.

The needs of this flooring are unique because it must be able to withstand the wear and tear of hockey skates, including scratches, scuffs, as well as heavy foot traffic. Making durability an essential requirement of the flooring.

Working alongside Altro Representatives and Collabor8 Architecture, Adrenalin Source for Sports specified Altro Ollero for this area. Altro Ollero is a versatile, durable and eco-friendly PVC-free rubber flooring solution. Altro Ollero exceeded expectations by offering durability, low maintenance and eco-friendly benefits.

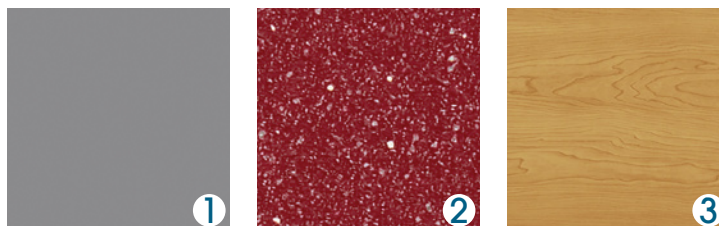

Not only is Altro Ollero composed of up to 90% post-consumer recycled rubber, but its integrated impact and sound absorption properties can also help reduce fatigue and excess noise in high traffic areas.

These tiles are easy to install and come in a square-edge glue-down or an adhesive-free interlocking format with four different thickness options. With the 10mm thickness option, Altro Ollero offers enhanced comfort and optimal ergonomic properties for long periods of standing, making it ideal for customers walking in hockey skates.

Unlike other flooring options, Altro Ollero requires no additional finishes or wax, ensuring easy cleaning without the need for harsh chemicals, ultimately leading to long-term cost savings and an overall safer environment.

Adrenalin Source for Sports Calgary can now rest assured that Altro Ollero will keep both customers and staff comfortable and safe, while also enjoying the cost-effective, low-maintenance benefits of this high-performance flooring solution.
