

Designed for possibilities.
Made for people.

NEW PRODUCT

Altro Transflor Metris

Typical applications:

Executive sedans, coach, shuttle, trolley, specialty vehicles, mobility vehicles, people movers.

The transition to zero emission buses has created new challenges for vehicle interiors. Optimizing vehicle range in line with the use of on-board systems such as air conditioning and heating have led the consideration to insulation to be as important as that of weight in the pursuit of operational efficiency. Altro Transflor Metris offers the best of both worlds in this respect by offering acoustic and thermal insulative benefits without the need to on-board excess weight. Available in a choice of designs and protected by ShieldGrip technology to ensure ease of cleaning and sustained slip resistance, Altro Transflor Metris is a perfect fit for buses wherever they operate.

lightweight safety flooring for the transit industry
