homely feel

Issue

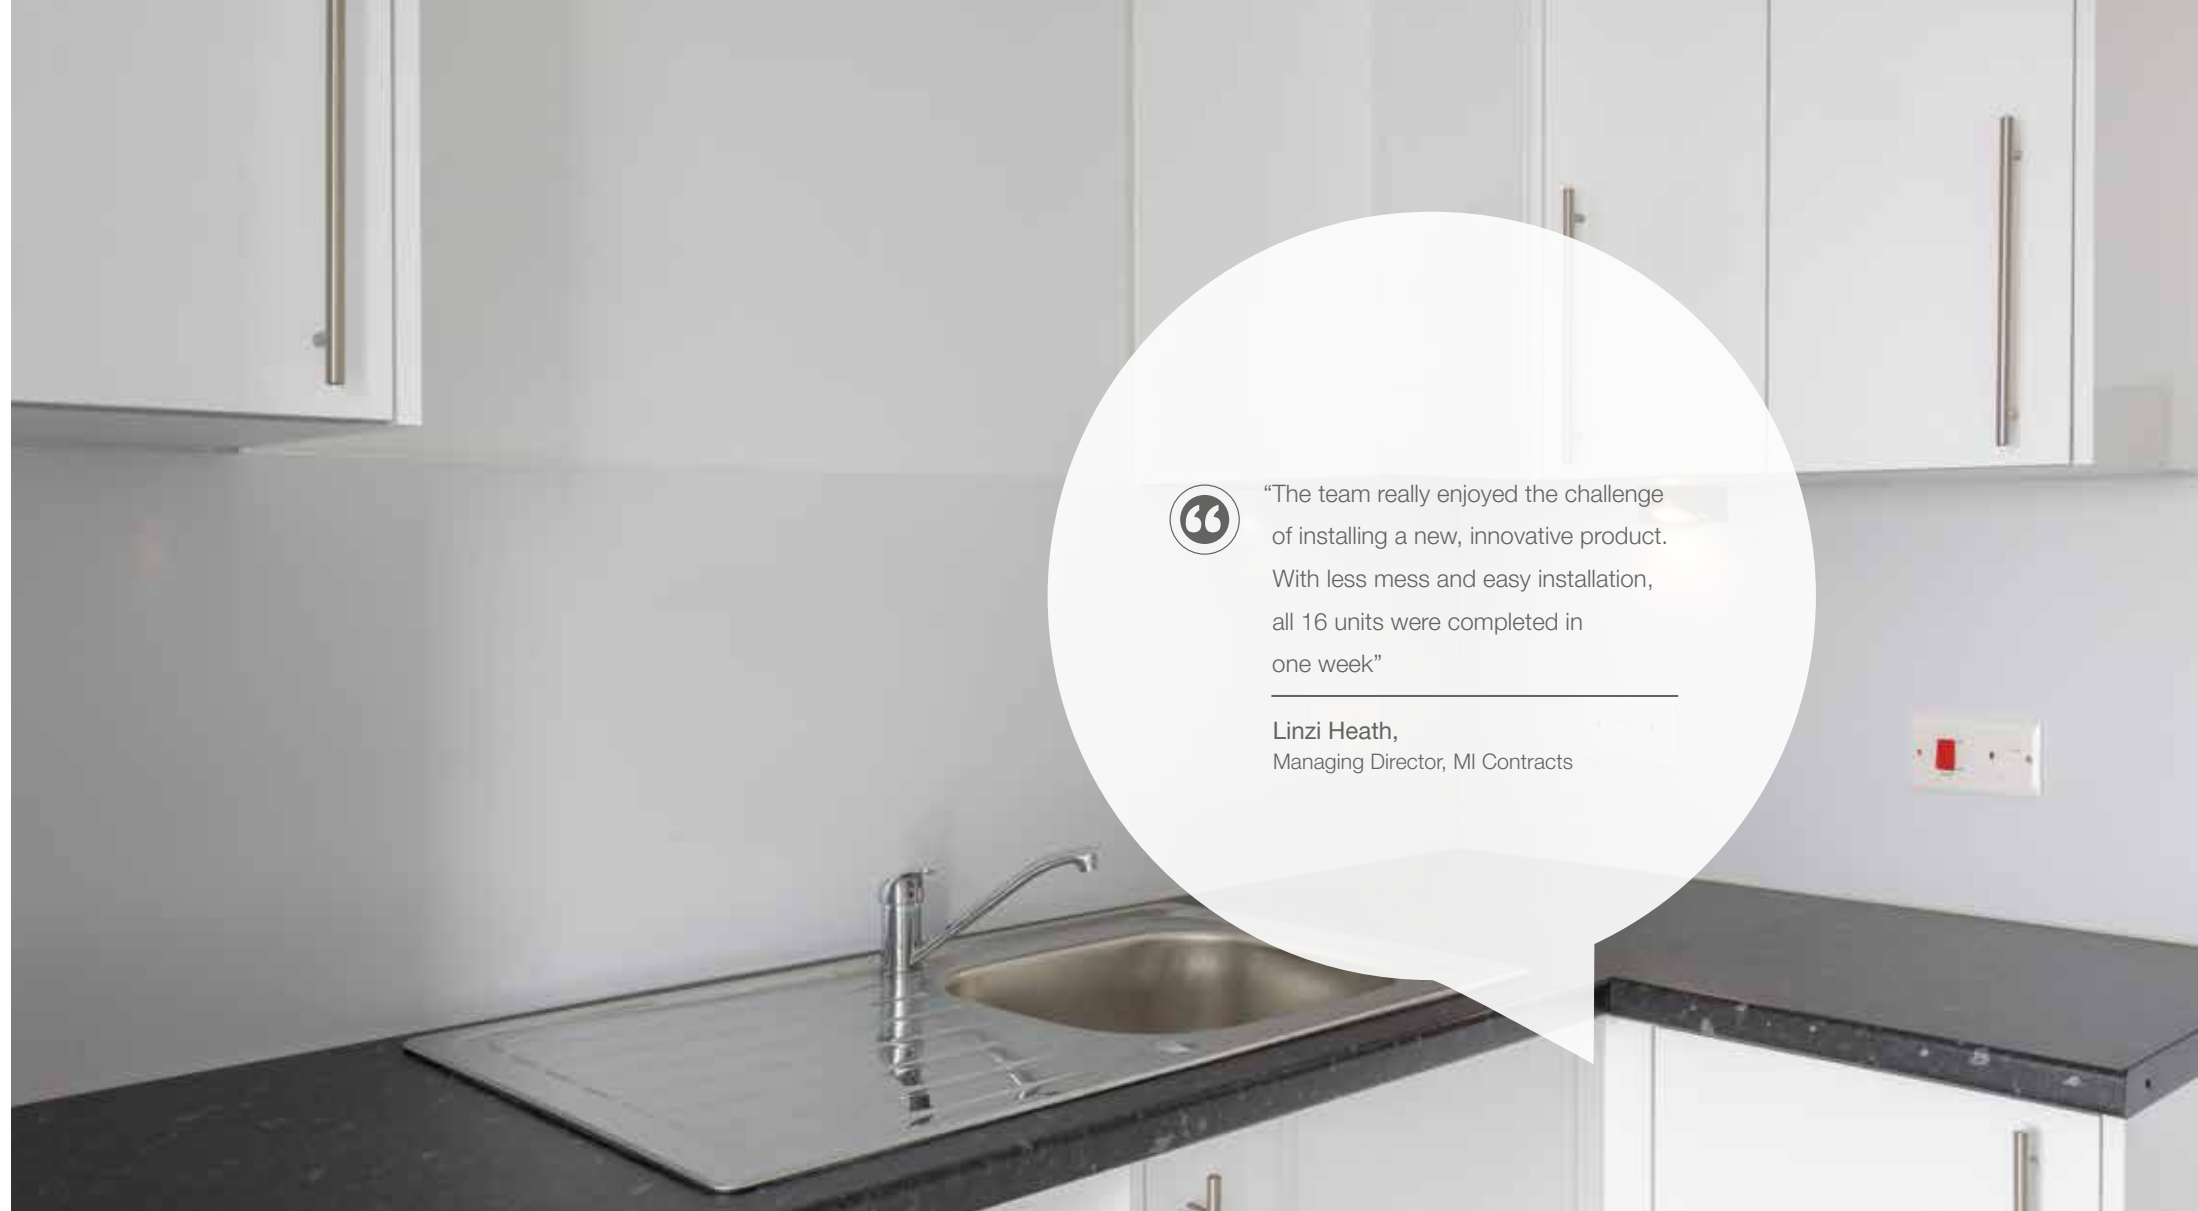

Sanctuary Housing is a large housing association based in Worcester. Their latest project, an affordable housing complex in Chester consists of 16 flats. For the build, Sanctuary Housing wanted to use wall cladding instead of tiles for the bathrooms and kitchens. This need was driven by the shortage of tiling contractors in the local area and the risk of tiles and grout getting dirty very quickly.

Approach

"The look and feel we wanted was a hotel type design, and we were considering something more colourful and decorative. We have used Altro Whiterock™ before and have always found it to be a great product in high traffic areas, giving us a lot of confidence in its performance. We were really pleased to discover Altro Tegulis" said Neil Ruecroft, Head of Construction at Sanctuary Group. "Altro talked us through all the colour and tile-effect combinations of Altro Tegulis and then provided us with mock-up designs for the bathrooms which looked really good. We decided to give it a go and Altro put us in touch with MI Contracts, Altro Whiterock Premier Installers who were highly experienced in using Altro Whiterock."

Solution

MI Contracts installed Altro Whiterock Splashbacks in the kitchens and Altro Tegulis in the bathrooms. Mike Heffernan, Installer at MI Contracts said, "This is the first time we have worked with Altro Tegulis and it was a joy to work with. Tiling can be an untidy and long-winded job. The installation of Altro Tegulis removed the mess and shortened the timescale dramatically."

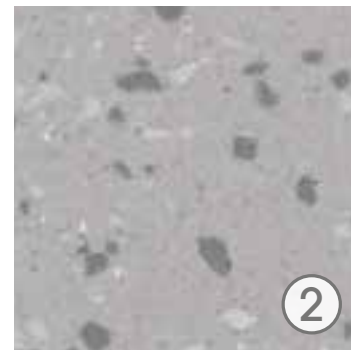

"The team really enjoyed the challenge of installing a new, innovative product. With less mess and easy installation, all 16 units were completed in one week"

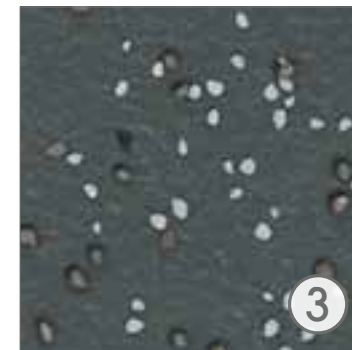

Linzi Heath,
Managing Director, MI Contracts
