Altro floor and wall selection for Cardijn College

Cardijn College is a co-educational Catholic school in Adelaide's beautiful Southern Vales region. In 2020, the school began a refurbishment project for some of its learning spaces. Altro Stronghold™ 30 / K30 was selected and installed as a durable, slip-resistant flooring solution for the home economics kitchens and school cafeteria.

Stage 2 of the project was completed in 2022, with Altro Stronghold™ 30 / K30 specified in their science laboratories and new commercial kitchen. Altro Whiterock White™ was used as a hygienic, impermeable wall protection lining in these spaces. And for the art and textiles classrooms, Altro Classic™ 25 / X25 was installed as the flooring solution.

Approach

Based on previous successful installations, Paul Boyce, Director of Tridente Boyce Design Studio, specified Altro's floor and wall solutions for this project as they were fit-for-purpose solutions that would meet the school's requirements.

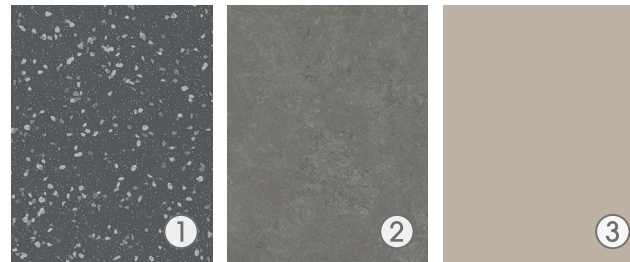

Altro Stronghold™ 30 / K30 achieves Altro's highest rating for slip resistance (P5, R12) and is designed to minimise risk in wet and greasy conditions for the lifetime of the flooring, making it an ideal selection for commercial kitchens, canteens, food preparation and service areas. Altro Classic™ 25 / X25 provides lasting slip resistance, durability and abrasion resistance, making it ideal for spaces where contaminants such as chalk, paint, clay or dirt can be found, such as craft, design, technology or art rooms. Both floor solutions feature Altro Easyclean Original Technology, which makes cleaning and maintenance easy.

Altro Whiterock White™ is a proven, high-performance wall protection solution and a hygienic alternative to ceramic tiles. Impact-resistant, impermeable and grout-free, Whiterock is easy to clean with no ongoing maintenance. Altro Whiterock White™ is Hazard Analysis and Critical Control Points (HACCP) approved and made from a high-quality, food-safe PVCu polymer that can handle temperatures up to 60°C, which makes it suitable for commercial kitchens and food preparation spaces.

"We have been using Altro's safety flooring ranges in our high-slip areas, such as home economics rooms, training kitchens, and canteens, for some years now. Our choice was based on the product's ability to withstand virtually any punishment that both staff and students can dish out"

Johnny Ioannou,
Business Manager, Cardijn College

Looks great with:

1. Altro Suprema™ | Cardoon
2. Altro Illustra™ adhesive-free | Hammerhead
3. Altro Whiterock Satins™ | Fawn

Solution

Altro floors and walls are tough and built to last. With a 30-year product guarantee for Altro Whiterock White™ and a 20-year product guarantee for both Altro Stronghold™ 30 / K30 and Altro Classic™ 25 / X25, Cardijn College's investment in quality will ensure a safe, hygienic, durable floor and wall solution that will outlast many generations of students at the college.

At Altro, we know that learning environments play a vital role in nurturing and fostering young minds, but just as importantly, they must stand up to the rigour of daily use.
