

Transform your kitchen with Altro Stronghold 30 adhesive-free

Before

After

With the help of Altro safety flooring, Nanabette's Ice Cream turned what was once a dilapidated space into a virtually seamless, multifunctional space ready to serve its customers.

The original flooring was a mix of concrete and quarry tile. While it sufficed for many years, the shift from a seasonal operation to a year-round business with online ordering and delivery revealed the floor's shortcomings. The flooring's functionality, cleanliness, and aesthetic appeal began to become a significant problem.

To ensure the staff was safe from slips and falls, the ice cream store knew it needed to install safety flooring. However, with business booming they could not afford to shut down for the flooring renovation. Working alongside Altro representatives and Yax Flooring, Nanabette's opted to install Altro Stronghold 30 adhesive-free.

Features + benefits of Altro Stronghold 30 adhesive-free

- Adhesive-free installation for minimum downtime
- Achieves highest level of slip resistance
- 2000 PSI; great for heavy kitchen equipment and point-loads
- Risk of slipping is 1 in a million – even with contaminants present
- Heat-welded seams for better hygiene
- Can be installed and walked on the same day
- Can be flashed-coved, preventing liquids from infiltrating behind walls
- Easier to keep clean
- No regrouting necessary
